

DS 522 Data Acquisition and Analytics HOS06Ab Cleaning and Prepping Data with PBI

Please capture the screenshots from the specified steps of the HOS06A-2 and HOS06A-3 exercises into this document. **Save this document as a PDF for submission.**

1. Power BI Dashboard or Home Page after installation:

The screenshot shows the Power BI Home page. The 'Recommended' section features four cards: 'My workspace' (You frequently open this), 'Explore basic Power BI concepts' (Getting started with Power BI), 'Explore the 100 most useful productivity tips' (Explore this data story), and 'Cancer statistics in the USA' (Explore this data story). Below these is a 'Recent' section with a table of items.

Name	Type	Opened	Location	Endorsement	Sensitivity
hos06	Dashboard	13 minutes ago	My workspace	—	—
test1	Report	a year ago	My workspace	—	—

2. FlightDelays table after filtering to show rows with DepDelay values greater than 15:

Power Query Editor window showing the initial query setup. The query is named "FlightDelays" and is based on the "Table.SelectRows" function, filtering for flights with a delay greater than 15 minutes.

Query settings

- Properties:** Name: FlightDelays
- Applied steps:**
 - Source
 - Promoted ...
 - Changed c...
 - Choose col...
 - Filtered rows

Table Data:

DL	Carr...	Ori...	OriginCityName	DepDe...
1	DL	ATL	Atlanta, GA	53
2	DL	DAY	Dayton, OH	126
3	DL	SLC	Salt Lake City, UT	69
4	DL	ATL	Atlanta, GA	49
5	DL	BWI	Baltimore, MD	33
6	DL	MCO	Orlando, FL	91
7	DL	ATL	Atlanta, GA	73
8	DL	FLL	Fort Lauderdale, FL	60
9	DL	LGA	New York, NY	21
10	DL	DTW	Detroit, MI	122
11	DL	DEN	Denver, CO	31
12	DL	CVG	Cincinnati, OH	33
13	DL	DCA	Washington, DC	27
14	DL	DCA	Washington, DC	99
15	DL	ATL	Atlanta, GA	23
16	DL	PHX	Phoenix, AZ	17
17	DL	RSW	Fort Myers, FL	40
18	DL	TPA	Tampa, FL	47
19	DL	MSP	Minneapolis, MN	79
20	DL	ATL	Atlanta, GA	51
21	DL	PHL	Philadelphia, PA	53
22	DL	SLC	Salt Lake City, UT	20

Completed (1.03 s) Columns: 4 Rows: 99+

3. Power Query Editor window after editing West Palm Beach/Palm Beach to Palm Beach:

Power Query Editor window showing the query after editing the destination city names. The query is named "FlightDelays2" and is based on the "Table.ReplaceValue" function, replacing "West Palm Beach" and "Palm Beach" with "Palm Beach".

Query settings

- Properties:** Name: FlightDelays2
- Applied steps:**
 - Source
 - Promoted ...
 - Changed c...
 - Choose col...
 - Filtered rows
 - Appended ...
 - Split colum...
 - Renamed c...
 - Replaced v...
